

12th September, 2019

Dear valued customers,

Over the past week Ripples St Marys has been experiencing difficulties with the supply of power resulting in moments of power outages.

The safety of our members and patrons is paramount, as such it is imperative that every precaution is taken, including closure of partial or all facilities and programs during outage periods.

We currently have a team of engineers working on investigating the reason for the power outages and we hope to have a solution as soon as possible.

Please continue to monitor our social media for the most up to date information regarding the status of our operations.

The staff of Ripples understand the inconvenience that has been caused. We sincerely apologise and appreciate your patience as we work towards a solution.

Regards,

Robert Tweddle
Manager – Ripples
